- CDC Integration with Oracle NetSuite via Celigo in real time.
- Created reusable packages for an integration team.
- Delivered self-capable microservices to production.
- Developed RESTful APIs for integration.
- Created and supported integration tests, code review.
- AWS EKS/RDS/S3, Java, Spring Boot/Data/Security, PostgreSQL, Debezium, Kafka, Terraform

Open Source Contribution

EO-CQRS: True OOP, small components for clean microservices development (Java, Maven, Docker, XML)

Skills

JVM: Java, Spring Boot, Spring Data, Spring Security, Maven, JUnit4/5, XML
Databases: PostgreSQL
Infrastructure: AWS, GCP, Docker, Kubernetes, Terraform, GitHub Actions, Rultor, 0pdd
VCS: Git on GitHub, Bitbucket
Other: React, JavaScript, UML
Languages: English C1, Russian Native

Education

Belarusian State Economic University   **Minsk, Belarus**
BSc in Management   2021–2025
Economics and Management Department, Intellectual property.

About Me

Software developer with strong expertise in backend/integration, and object-oriented systems with Java. Driven by open source and eventually inventing. Have experience of teaching students in the discipline "Distributed Software Systems". Interested in R&D in the area of High-Level Programming Languages. Love playing tennis, watching nordic noir, and traveling. Running small tech blog.
